TRUCK OWNERS WIN
FIGHT ON MOTORIST

An answer to the many questions
of Janesville motorists concerning
backing autos from the curb is given
in the decision made by Justice of
the Peace Charles Lange in the case
of the Peace Brothers vs. George Hom-
sey. The decision was that the party
backing out is responsible for any
damage done to another car if the
first party did not sound his horn.

The case was brought before
Justice Lange on July 20. A large
truck belonging to Hanley Brothers
was being driven down the street
when it struck the car of George
Homsey backed his car out, striking
the truck and causing \$135
damage. Damage of \$35 was done
to Homsey's car. Testimony showed
that Homsey did not sound his horn
and as there were several cars lined
up, the driver of the truck could not
see in time to avoid collision.

The case was tried in justice court
with Henry Carpenter appearing for
Hanley brothers and John J. Stewart
of Monroe, of the Wisconsin In-
demnity company, for Homsey.

Hanley Brothers were awarded
\$135, which Homsey's insurance
company paid, together with \$32 for
costs.

SEWER AND WATER
MAINS ORDERED IN

Two sewer and two water mains
were ordered installed this year by
the council in regular session Mon-
day night. Requests for the sanitary
sewer and a storm sewer were referred
to the board of public works.

The following sewer work was
authorized in the West ward: Wash-
ington avenue from Park avenue to
a point 253 feet east; and on Wash-
ington avenue from western avenue to
Galena street.

Installation of a 6-inch water
main was ordered on Washington
avenue from Park avenue to High
street, and a 14-inch main on High
street from Corolla to a point 155
feet east.

There were 20 signers to a petition
to have a sewer laid from the corner
of Blackhawk and Clark streets to
Sharon; and 12 to a petition for a
storm sewer on Pine street, extending
from Racine to Mineral Point ave-
nue.

Desertion Commonest
Cause for Divorces;
Six Decrees Granted

Six divorces were granted in cir-
cuit court here Monday by Judge
George Grimm. Three of them af-
fected Janesville people.

The first divorce on a counter-
claim to be given here for some
time was granted to Clara Mitchell,
32 Mineral Point, from Elmer
Mitchell, 32, an electrician living at
Beloit. Although the plaintiff had
charged that his wife had deserted
him, no proof was shown in court.
The woman, 29, is four years older
than the man, and three years of age,
filed a counter claim that it was
he who deserted her and that he was
cruel to her, having struck her and
otherwise mistreated her while they
were living at Mineral Point.

Went Away on "Bike."—
Carroll Smith, 50, address un-
known, came to Janesville from
Milton Junction, Ill., in 1911, to
do some debt. He had worried
considerably about his financial
troubles. He made the trip here on
a bicycle, left it at a hitchhiker, and
then disappeared. He was located
here since he failed. In asking for
divorce, Evelyn Smith, the wife, aged
32, charged desertion. Their mar-
riage had lasted but four years. She
lived up to that time, she recited,
custody of a minor child and inter-
est in real property valued at
\$30,000 and personal property, val-
ued at \$2,000.

Off to Canada.—
Cruel treatment by her wife and
later desertion by her, taking their
three-year-old child with her and
going to Canada, was the grounds for
divorce granted to Edwin O. Lenz,
22, mechanic of this city, from Marie
J. Lenz, address unknown.

Leslie J. Davis, 40, a garage man
of Evansville, secured divorce from
Fanny Davis, 38, on grounds that his
wife stayed out until late at night
and kept the company of other men
saying that she did it to find "con-
genial company." She charged
him with infidelity. Divorce was
granted Davis, but the custody of
the children was left with the moth-
er. They are both girls, nine and
four years old.

Barter over Girls Decree.—
Charles, of desertion against Ed-
ward Meighan, 32, a local barter,
won divorce for Gertrude
Meighan, 28, Fort Atkinson. She
was given the custody of their three
children, 8, 6 and 4 years of age, and
\$10 a week for their support.

James J. Puenbrock, 27, a Janes-
ville laborer, and Alvina Puenbrock,
27, a local barter, were married
in March, 1913. They lived together
until March, 1919, when she left
him. He was granted a divorce yester-
day on charges of desertion.

Foundations are being laid for
the latest addition to Plant 1, Sam-
son Tractor company, the purpose of
the new building being to provide
space for the testing of Samson
tractors. At the present
time, the tractors are tested out in
the main shops, but this arrange-
ment is not satisfactory, as the floor
space is too crowded.

The new addition will be the full
width of the present building, ex-
tending the present plant 150 feet,
furnishing a large area for tractor
testing.

SAMSON SEEKS TO STOP ACCIDENTS

Latest Safety Devices Reduce Shop Dangers to Minimum

A big industry like the Samson Tractor company with its big force of employees cannot afford to depend upon luck to avert accidents. There must be some practical means whereby the risk to the workman is minimized. It is a fact that the safety of the men and provide effective means for the prevention of accidents is the head of the "safety" department.

Increased production is of course the goal to which all efforts are directed. But in striving for production, the human element, the worker, is a factor in the situation, cannot be ignored. The modern idea, according to the safety engineer, is to not only make as much production as possible but also to take into consideration the safety of the men. The working conditions as safe as is humanly possible, and to make the workers see that new safety devices on machinery are not intended to reduce their work, but to enable them to work in safety, are the main purposes of the safety department of the Samson Tractor company.

Started in Wisconsin
Wisconsin has the honor of being one of the first to start a practical safety campaign. In 1907 the National Safety Council was organized in Milwaukee, and since then nearly all states have fallen in line. The National Safety Council is composed of members from the leading industries, railroads, and business firms, the idea being that a concerted effort to make working conditions safe, with its slogan "Universal Safety," could be more efficient and count for more than uncoordinated effort of small organizations. The "National Safety News," called by the National Safety Council, is published by the council, in order that all members may keep abreast of the times and know the latest methods for averting accidents.

Wisconsin, with its industrial commission and its effective laws for the workman's safety, in almost all of the states, conditions of work are unusually good, and few factories or industries can be found where care is not taken to make the worker's environment modern and safe.

Few Samson Accidents
Samson can boast of extremely few accidents, and so far there have been no serious accidents. About 200 injuries per day are treated by the doctor and nurses employed in the medical department, and the number of accidents is considered quite low according to the size of the plant. Most of these injuries are scratches, cuts, and bruises, and the wrists, which, in time, are kept from developing into serious cases. The point which the safety engineer tries to emphasize to the workman is that although the scratch or cut may not seem worth the time spent in visiting the doctor's office, the safe plans is to make the physician, in order that all danger of infection may be avoided.

Many Safety Appliances
Shops at the Samson plant are equipped with the latest safety appliances, all pieces of machinery that might endanger the men being protected by metal guards or belts enclosed by these safety screens, and large signs hanging from the ceiling call attention to possible dangers. Plans have been formulated by the safety engineer for getting a representative from every department of the shops who will come to meetings called by the engineer, and report instances which he has observed, where there is danger to the workman. It will thus be a much simpler task for the safety engineer to correct all conditions that might retard the safety program than if he were obliged to personally observe every one of the men at his work.

Watch Other Fellow
Lots of men will run risks, when they are given instructions as to how to keep out of danger, and shown the folly of taking chances. They would see the need for "safety" measures. Before the campaign can become thoroughly effective every man must see that he can not look out for himself alone, but must watch out for dangers that

Priscilla Bonner is the name of one of Hollywood's newest finds. Miss Bonner is a charming young girl who is to play ingenue parts. You will see her for the first time, no doubt, playing opposite Jack Pickford in "The Man Who Had Everything." Miss Bonner's father is a lieutenant colonel now stationed in Chicago on the staff of Major General Wood. Most of her early life she spent in out of the way army posts and it's a very, very different life from the motion picture studio is her voracious. "I have acted all my life," she explains, "not really but make-believe. You see, kiddies who are reared in army posts do not have all the advantages that city children do and so I just had to amuse myself most of the time. My favorite game was play acting and I usually had to take all the parts and do the scene shifting myself because there were seldom other children to play with. I used to act out every book I read and I used to imitate all the men and women who came to our house."

Miss Bonner says it never occurred to her to really act until she was fifteen years old, when she was hired by her father to play the part of a young girl in a play.

might threaten his neighbor workman. It isn't a program of safety for an individual, but for the whole shop.

Prevention of accidents, not cure, is the idea of the safety department.

Unidentified Body Is Found Hanging to Tree

Wausau, Wis., Aug. 9.—The body of an unidentified man, about 65 years old, was found hanging from a tree in the woods near Shawano. He was poorly dressed and there were no marks of identification.

DRY CLEANING

As dry cleaning is so high this is a good suggestion for a good many housewives.

One gallon gasoline, one teaspoon ether, one teaspoon chloroform, one teaspoon ammonia, one gallon of alcohol. Buy the last four drugs in quantities of one ounce each and use as needed. As it evaporates quickly, keep corked.

Here's the Life

Family of Seven Takes Annual Summer Outing by Following Middle West Fair.

"We should worry about the high cost of outing," said Mrs. E. A. Cunningham across her lunch counter at the fair grounds here. "We earn as we go."

"Every year we pack the five kiddies and ourselves in a truck and follow the fairs," she said. "This is the first place we've been in this year, but we've been doing this for years, and every year we like it better. Even my baby who is only five months old likes the life, camping out in a tent."

One little son is just three years old, but he is already a confirmed fair man. He knows all the tunes by their first names, knows the itinerary of all the big fairs, and in fact knows everything that an experienced fair man should know.

The family just started from Rockford, where the father is a roofing contractor. Traveling in a large truck, they will go to the fairs at Madison, Milwaukee, and several other

places.

TRADE MARK

The Electric Fordson Tractor Will Be Exhibited at the Janesville Fair

I want you to see this Tractor as it shows you the material it is made of, and also every working part. Every Buyer of a Tractor should know how his tractor is made, and what it is made out of. And for this reason the Ford Motor Company have furnished this Tractor so that it can be distinguished from any other tractor. The worm gear drive, roller bearings, Thrust bearings and crank shaft with ball bearings and all moving parts are there for your inspection.

Don't miss this opportunity to see this tractor. A Salesman will be there to explain and answer any questions.

The Fordson Tractor is one of the only successful tractors that uses Kerosene for fuel all of the time. The reason that it can use kerosene all of the time and be successful is that it has a perfect water air washer.

Look for the Fordson at Tent No. 3.

At the big Free Automobile Show all models of Ford Cars will be on display, including a Cut-away Chassis. A salesman will be in attendance to explain and answer questions.

THE DIARY OF AN ENGAGED GIRL

NESSA SLOAN HAS A HIT OF STATION NEWS.

July 31.—My life has become so tumultuous that I find that I have but little time for reflections. That is good and bad at the same time. It is good because I am so busy, and bad because I have no time to think. I am alone, in the seclusion of my room, and I feel like everything in the world but a bride. That means that I am not in a sentimental mood, but am filled with sterner thoughts and ambitions. (Don't know just what connection there is between ambition and being a bride, but—)

Got most of my work done before breakfast today. It happened to be one of those lucky days. Made some funny sketches of a western bride arriving in town for the honeymoon. Saw her in one of the big hotels. She was evidently a millionaire's bride and was properly dazzled and impressed by all about her. I caught one of these same dazed expressions.

Each day has its new type for me and my little pen. I certainly have all the variety that my heart has ever longed for and then some. It keeps me on the move, and it sure does keep me amused. I never know what hands could do, (with apologies here to the composer of that charming little song), and mine are flying over the old Bristol board every minute, seems to me.

There is a great advantage in being on the quill-vill and makes you observant. Oh, all of that! I find myself straining to catch every detail of everybody's face and a half (remember Wilson's "I am a fish on the street, and in the subway; in fact just wherever I happen to be, the leaders or the more or less of free hand, and that helps won-

derfully. Mr. Reade and I understand each other perfectly. We are in fact quite attached to each other, if that possible, insuring short space of time. And he seems to appreciate everything I do.

Some editor-persons are the greatest in the entire world, I'll say. And I don't need to go into any long explanations for this statement—it is self-evident.

Managed to get off at about three-thirty this p. m. and took a run in to see Nessa Sloan and hers (hers being the pet dog pup), as Ned is seldom home before dark afternoon. He wanders about town seeking inspiration—at least that's what he calls it. What's in a name, after all?

Nessa was awfully glad to see me, and do you know, now that I am on my own, so to speak, and on the way to becoming a real woman of the world, economically independent and all that, why I feel that people like Nessa and her gang will and do appreciate me for my own worth and not just as an attachment of Jack's.

It had the shock of my young life, when during the course of our conversation we came onto the subject of my Prince Charming, and quite naturally Nessa told me that he was married! I thought, "I felt my hair positively rising at the news. And he so romantic! Oh, dreamy eyes to be so deceiving. Not that he ever deceived me, for we hardly knew each other, and it never occurred to me to ask him as to his state, whether married or single. I just took it for granted that he was single. Such a pair of dreamy brown eyes must naturally know that his by rights belongs to the whole world of woman—not to one especially as he is an experienced man." (To be continued.)

What's New in the Shops for August

By ELOISE.

The July sales are over in the shops and the August sales are the center of attraction, which means that the remnant days are past and the new lines are now offered for inspection. There will be the most prominent of all in the August sales, a wish, model of a wool plaid, but some other things in the stock pictured here are three attractions which will find eager buyers. At the

left is one of the popular sweaters of Georgette wool, which is a finer weave than the shawl sweaters. This sweater is old gold color and it comes in black, navy, red, and green. It makes a charming costume with one of the new plaid skirts either in a wish, model of a wool plaid. In the center are exquisite and costly hose of black silk embroidered in silver and beads. They are just the thing for the first formal dinners

and dances of the coming season. Another fall favorite is the four-lard frock. This frock finds favor in the spring and fall and is always a practical and attractive garment. Here it is fashioned of navy blue with large white polka dots as the figure. It is made in a very simple fashion with short sleeves and a V-neck. The hem and the cascade at the hip as well as the mouse are trimmed with wide faggoting. Such a frock may be worn upon any occasion in the daylight hours and will be good for late in the fall season and early in the next spring. Perhaps this trio of what the

English Mutton or Lamb. One large or two small onions, salt, pepper, half dozen cloves.

Cook until well done. Add a little piece of butter. Thicken broth to a gravy and have meat cut to small bits.

Put two good sized apples and slice them. Place meat in baking dish. Place sliced apples on meat; allow gravy to cover meat. Place a biscuit dough on top with opening. Place in hot oven to bake. Save rest of gravy to keep hot to use at the table when served.

Golden Glow (a new breakfast dish)—Toast several pieces of dry bread and lay on a platter; butter them a little. Take four hard boiled eggs and dice the whites and put in cream dressing made from one pint milk, a little butter, salt and thicken. Pour over toast. Grate yolks over the top.

Delicious Green Apple Dessert—Before the apples have become ripe mix one-half glass of red currant jelly or red tart jelly with three-quarters of a cup of boiling water, and when it is dissolved add one pound of granulated sugar and the grated rind, also the juice of one lemon. Let it boil three minutes in a saucepan. Then put in eight strips apples, pared and cored, simmer gently until the apples are transparent, then lift them out carefully into a glass dish.

Let the syrup boil for five minutes and when partially cooled pour it over the apples. When cool it should be a clear, light red jelly.

Stuffed Figs or Prunes—Make a lengthwise incision in steamed prunes; remove stones and proceed as for stuffed dates.

NAMES IN PUBLIC PLACES NOT ALLOWED IN YELLOWSTONE

Yellowstone Park, Wyo.—Unthinking tourists who deface the beautiful natural formations at Yellowstone National park by writing their names and crude sentiments in geyser bowls and on hot springs terraces are meeting with quick discipline this year.

Under an effective system of registration, every tourist entering the park is being checked in on arrival and checked out on departure and his method of travel noted. If in his own automobile, the state number of the machine is recorded. With such information available, conversations like the following are sometimes heard over the park telephone:

"Hello, hello. Is this the north

entrance? All right, Chief Ranger's office speaking. John Q. Blank, traveling with an automobile with state license No. 12345, wrote his name yesterday in Old Faithful basin. Hold him when the car checks out."

And when the automobile arrives at the north gate, or any other of the park's four entrances, Mr. Blank or Mrs. Blank or Miss Blank if they should offend, for women are not exempt—is fetched back to headquarters and told politely but firmly that such vandalism will not be tolerated. If he—or she—is willing to remedy the damage by defacing the writing, the incident may be allowed to end there. Otherwise, the law takes its course before a United States commissioner resident in the park. Heavy penalties are provided by statute for injuring the formations in any way.

In all justice to American tourists, Yellowstone officials say they have a minimum of difficulty in enforcing the regulations.

Swimming, Tennis and Track Meets Planned for City

Boys and Girls, Men and Women in Swimming Meet; Boys and Girls in Tennis

Swimming, tennis and track meets for the boys and girls of the playgrounds and for men and women of the city are planned by G. E. Linden, supervisor of playgrounds. All arrangements have been completed for the swimming and tennis tournaments. Those for the track meet, which will be held at the fair grounds about August 23, will be made later.

The swimming meet is scheduled to take place at Goose island on August 18. Events will start at 2:30 o'clock that afternoon. As the schedule is lined up there are 10 events.

Will be six classes:

Junior boys under 12; senior boys, 12 to 16; junior girls under 12; senior girls, 12 to 16; men; women.

Prize ribbons will be awarded to winners of first, second and third. Blue will be given for first, red for second and white for third.

The swimming events are as follows:

Junior boys—25 yard swim; 50 yard swim.

Senior boys—25 yard swim; 50 yard swim; 100 yard swim; 200 yard swim; 400 yard swim; 800 yard swim; 1600 yard swim; 3200 yard swim; 6400 yard swim; 12800 yard swim.

Junior girls—25 yard swim; 50 yard swim.

Senior girls—25 yard swim; 50 yard swim; 100 yard swim; 200 yard swim; 400 yard swim; 800 yard swim; 1600 yard swim; 3200 yard swim; 6400 yard swim; 12800 yard swim.

Fancy diving will include three dives for boys and girls as follows: the front dive, front jack-knife and back dive. Diving for men and women will be the same with the addition of the back jack-knife and one optional dive.

Entries for the swimming meet can be made out and mailed to G. E. Linden, 1010 Olive street, or until the time of the meet and enter them.

The tennis tournament is planned to start Saturday, August 14, and to continue until all but the winners are eliminated. This will be confined to boys and girls in the city. Prize ribbons will be awarded to the winner and runner-up in all classes. Entries are to be made with Miss Lillian Elmer at the Jefferson grounds and all must be in by Friday evening, August 13.

Play will be held on the grounds of Jefferson school.

All competitors will be divided into four classes, both in singles and doubles:

Boys under 14; boys 14 to 18; girls under 14; girls 14 to 18.

DODGE TO TWIRL FOR MCCOY-NOLANS

Jimmy Dodge, crack twirler of the Whitewater team in the Central State league, has been hooked by Fred Johnson, manager of the McCoy-Nolans, Milwaukee, to pitch all mid-week games of the Cream city aggregation for the balance of the season. Dodge is famed for his "one-run game" early in the season. Facing the Samson Tractors at Whitewater last Wednesday, he was defeated by Bill Lathrop, the final score standing 2 to 1.

RAIN

Rain! Wet and sloppy, Macintoshy. Spoiling golf, new hats and tennis. Rain, the summer-lover's menace, Making Cupid's urgings vain—

Rain!

"Gee, what luck, it's pouring buckets!" Says the happy farmer, knowing that it suits his crops a-dripping. Boosts the Beans and swells the grain—

Rain!

Sweet and gentle, Sentimental. Waits upon the roof it patters. Nothing worries, nothing matters. Strumming home-songs on the piano. —Rain.

Beloit-Janesville Golf Match Is Postponed

An inter-city golf match scheduled to take place between the Janesville Country club and the Beloit Country club, at Beloit tomorrow, has been called off because of the Janesville fair. It will be held at a later date to be set.

NO UPSETS IN OPENING OF NEWPORT TENNES

Newport, R. I., Aug. 10.—The first day of play in the annual lawn tennis tournament at the Newport Casino saw no upsets in either the singles or doubles.

DUTCHMAN WINS BIKE RACE AT OLYMPICS

Amsterd., Aug. 10.—Peters of Holland won the 1,000-mile bicycle race. Foreign competitors complained that the track was too narrow and too steeply banked at the turns.

Muddy-Track Halls Grand Circuit Racing

Cleveland, Aug. 10.—Grand circuit racing was again postponed today at North Randall because of the muddy track.

SOX NOW SECOND; DODGERS BEAT CUBS

AMERICAN LEAGUE

Chicago moved up to second place in the pennant race yesterday by winning two games from Washington 2 to 2 and 5 to 4. Passes by Shaw and an error by O'Neill, coupled with timely hitting, gave the White Sox the first game. The Sox were held to six hits in the second game, but five of them were for extra bases.

Continuing to win, the Tigers, defeated the Athletics 5 to 2. Naylor was driven from the mound in the seventh. Keefe then went in the box but gave way to Moore.

Ruth was passed three times in the game with Cleveland won by the Yankees 6 to 3. Morton was wild and the league leaders made five errors. With two out in the ninth, Davis weakened after holding Boston to three hits, and the Red Sox tied the score with three successive doubles and then beat St. Louis 5 to 4 in the eleventh on Morison's extra base hit.

NATIONAL LEAGUE

Holding on to their slight hold on first place, the Brooklyn Dodgers defeated the Cubs yesterday 6 to 5. Alexander, a hoodoo over Brooklyn all season, lost his pull and the game. Killifer smashed a finger and will be out of the game for some time.

Thirty-four players figured in Monday's game of the Philadelphia-St. Louis series won in the eleventh by the Cardinals 12 to 10. North, the tenth pitcher, drove home the winning run with a single.

The Giants shut out the Pirates, 4 to 0, their rivals for third place. The battle was a southpaw pitching duel between Nohr and Cooper until the latter retired for a pinch hitter in the eighth.

Cincinnati took two games from the Boston Braves, 10 to 5 and 6 to 2. Only one Red runner was left on bases in the second game.

AMERICAN ASSOCIATION

The Brewers dropped their third straight to Toledo yesterday, this time 7 to 6. Milwaukee led for the first six innings, then went crack.

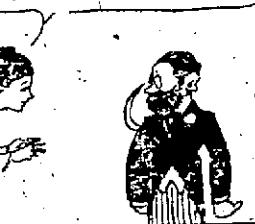

FIGHT DECISIONS

Columbus, Ohio.—Gunboat Smith of San Francisco fought a 15 round draw with Captain Bob Roper of Chicago.

Jersey City, N. J.—The 12 round bout between Billy DeLoe of St. Paul and Ralph Brady of Syracuse was stopped in the fourth round by Referee Behrhardt who declared it no contest.

18-YR. OLD SETS NEW SHOOTING RECORD

Camp Perry, Aug. 10.—Virgil Richards, 18, of New Haven, Conn., set a record by scoring a possible in 20 straight shots in the 100 yards sweepstakes event in the small bore tournament of the National Rifle association.

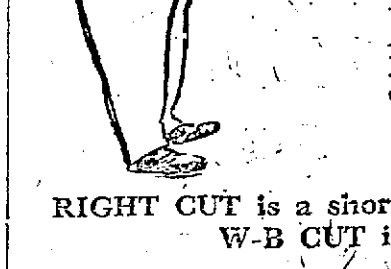

Washington.—An "old horses' home" and a "vacation farm" for horses are both to be found on the hospitable acres of J. C. Probert, a Washington newspaper man, at "Homeland Farm," Olney, Md.

AND HE DID

GEORGE BEAR- I'VE NEVER SEEN YOU WITHOUT A BEARD- I WISH YOU'D SHAVE IT OFF TO PLEASE ME!

AND HE DID

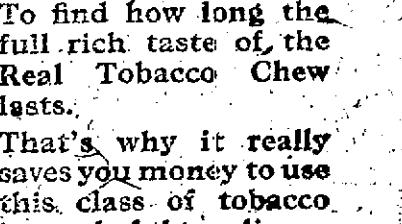

Mr. and Mrs. Probert have for years been active members of the Washington Human society. When Mr. Probert bought a farm recently they realized they had then the opportunity to put some of their good wishes for dilapidated horses into practice.

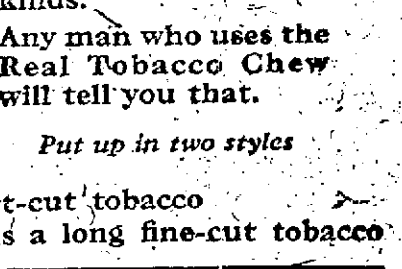

Accordingly Mr. Probert has made a standing offer to take care of any horses condemned to die, so they may have a little idea of "horse heaven" before they go, and give other used animals the "vacation" that many owners nowadays are granting their horses with their employees.

DO NOT WAIT FOR ELEMENTS
Mexico City.—Upon the report of Italian munitions expert will decide the decision of the question whether or not the Mexican government is to manufacture its own instruments of war.
In case his report causes the military chief of the nation to decide to purchase their munitions abroad, a practice of employing buyers in foreign countries will be discontinued and the purchases will be made through the Mexican government's regularly constituted commercial agents, according to the plans of General Phaulst, minister of war and marine, who is reported by El Universal. Furthermore, effort will be made to find, within the army itself, the military experts who are entrusted with the task of judiciously placing the government's orders abroad.
"In Mexico there are all the raw materials necessary for the manufacture of arms," El Universal adds. There is already on record a case where the carefully conducted manufacture of war material is resulting in a notable economy for the country; namely, in the construction of airplane propellers. This work will be extended successfully to the manufacture of all our war material."
